Your connection with cupid!

A.N.-You Drive Me Crazy! I want to be everything you want me to be. -J.W.

To the ladies I have seen and fallen in love with at first sight who have never shared this feeling, who I have embraced in my mind, living an entire life of slow tangos and romantic adventures that ended with the stride that took you from my sight, for that moment you were the only one in my universe and if it weren't for the shyness that has plagued my life then we may have really strolled along together on a moonlit path leading to our own shangrila, but I thank you for showing me that there really is a paradise out there waiting for me somewhere, and I wish you a happy Valentine's Day. Shy Guy

Piggy- You're the cats meow! V.M.

Horoscopes...love advice from the stars

Capricorn(Dec.22-Jan.20) You have trouble finding love but there is someone out there for you. Give a Taurus a call and see what happens.

Aquarius(Jan.21-Feb.19) The planets are not in your favor for love this month, but a Libra may be a thrilling fling. Look within yourself for happiness, and love will shine on you in the future.

Pisces(Feb.20-Mar.20) Life wouldn't be so bad if you could find a Scorpio. No matter how many relationships you go through you will continue to look for true love.

Aries(Mar.21-Apr.20) If you want to find love Gemini is a good match. You also will like what Leo has to offer. Stay away from Virgo, they will cause you nothing but heartache.

To the cute girl in my Chem. Class-You make the lectures bearable. Maybe we can work on "our" chemistry.-Your lab partner

J.P.-I love your smile. Everytime I see you it gives me butterflies. If only you knew how I really felt about you. -T.S.

R & E-You guys ROCK! It's cool hangin' out with you two occasionally, (I say 'occasionally' because I can never be the Power Drinker that you guys are-I'm not worthy!) What else can I say? Thanks for making me laugh! -You're friend, M.J.

Jeff-Thanks for the real date. I'll share my soda with you anytime -Sarah

Taurus(Apr.21-May20) You are well-suited for a Cancer, but true love will be found in the arms of a Virgo. You are bound to cross paths with one sooner or later.

Gemini(May21-June21) Leo is the one for you; this combination will last a lifetime together. Stay away from Cancers and everything will be all right.

Cancer(June22-July22) Virgos will keep you entertained but the one you want is a Scorpio. A Pisces is also a good match if you feel that something is missing in your life.

Leo(July23-Aug.22) Aries has what you are looking for; they will provide you with a partner that keeps on giving. Taurus will only break your heart so stay clear of temptation.

Robin Walz and Family-I hope your family has a nice Valentine's Day. Also I'll wish for a speedy recovery for your son. Thanks for being a great teacher amidst the sudden turmoils that life will occasionally deal out.-A student

To Claytius-
I want your knowing hands to caress me all over, exploring my body as though it is a four leaf clover, your hands on my breasts, while I caress your chest, making me scream, making me moan, grabbing, licking, scratching, yearning.

I can feel myself burning, my mind is completely on you, your body moving with mine, I suck on you like a strawberry vine, and then you make love to me like no man ever has before, and then we both explode, with our bodies in freak mode, we relax, lay on the floor, and then we go for some more. Yours-R.R.

Virgo(Aug.23-Sept.22) If you do not find yourself a Taurus you will regret it for the rest of your life. These two signs were made for each other.

Libra(Sept.23-Oct.23) You will find happiness with an Aquarius. You will also enjoy the time spent with a Leo.

Scorpio(Oct.24-Nov.21) You can get along fine with any of the signs, but if you want someone that will be there for you start fishing now and hope you catch yourself a Pisces.

Sagittarius(Nov.22-Dec.21) You will like what Aries has to please you with but the offer from a Leo isn't so bad either.

Dr. Love and Deb Auchery

Dear Doc and Deb:

I like this guy a whole lot but have made out with both his roommates. I want a serious relationship with this guy but I am afraid he thinks I am a slut.

Doc Says:

Well, are you? The image that you give people is what they're going to think. Just take it nice and slow and you will get what you want. Whatever that is.

Deb Says:

If any guy thinks you are a slut for making out with someone then they are closed-minded fools! That is, of course, if your definition of making out is simply some serious kissing and groping sessions. Regardless of your foreplay endeavors, if you didn't have reckless, casual sex with them and many other partners, then I wouldn't consider you a slut. Now about the perception of the word slut, who cares if you are a slut! Most guys are sluts themselves! This is a new century and if you want to have sex, and you are a responsible, consenting person then do it! Don't stigmatize yourself with petty derogatory concepts that are created by people who want to keep the individual spirits of others on a tight leash. Now, back to your question. Hold your head high and ask the guy to hang out with you. Let him get to know more about you and vice-versa. Find out what his interests are etc. Remember to get what you want all you need are three things 1) patience 2) vision enough to see yourself achieving success and 3) gumption enough to do it!

Get busy Baby!

Dear Doc and Deb:

I am supposed to go to Mexico for spring break but my boyfriend wants me to stay here. What do I do?

Doc Says:

Tell him Mexico is where it's at this spring break and if he wants, he is more than welcome to accompany you south of the border.

Deb Says:

What do YOU WANT to do? Why does your boyfriend want you to stay here? Is he planning a great romantic week of solitude for the two of you? Or is he just worried that you are going to a potentially wild-partying, sun-filled, scantily clothed, co-mingling, hot spot without him? Is he unable to go? Or was he not invited? Talk to him about these things, but really...you know what to do.

Do what you are supposed to do.

Dear Doc and Deb:

My boyfriend cheated on me a lot and once I found out I dumped him, but now one of the girls sits next to me in one of my classes. I just want to rip her throat out and it is really distracting me from listening to the teacher. What should I do?

Doc Says:

You should get a new seat. Then let it go and don't worry about it. He's not worth it and neither is she.

Deb Says:

Need I say more? My charming colleague has said it all.
