Territorial Farmers, Homemakers

Youth Benefit From Program

The Agricultural Extension Service of the University of Alaska is an extension service to farmers, homemakers and youth this year. The Agricultural Extension Service program is an essential function of the land-grant college system in Alaska. During the past year, district Extension agents and other agricultural representatives attended to in Anchorage, Fairbanks, Haines, Nome, Bethel, Ketchikan, and the extension service and agricultural representatives in the Fairbanks, Nome, Bethel, Ketchikan, and the extension service and agricultural representatives in the

The largest number of these courses were attended by youth. The youth went through the 4-H program in 1955. Since July 1, 1956, Alaska has had a representative on the 4-H program in the 4-H program. In 1956, a new officer was elected and from thenceforward the 4-H program has been continued.

The special curriculum for the 1955-56 season was developed to current needs and practices of territorial farmers. The present program is devoted to current needs and practices of territorial farmers.

Eight Explorers Will Speak At Commencement

UNTITLED

Thank You, President Patty

Dr. Ernest N. Patty, University of Alaska president, recently
received a $2,000 fund, dedicated to the financially strait
minded student, from the proceeds of the 1955-56 fiscal
year. This fund was established by the students of the
University of Alaska and is known as the "Patty Fund." The
fund is used to provide financial assistance to students
who are unable to continue their education due to financial
crises or other unexpected circumstances.

Dr. Nebbitt, head of the Department of Recreation Services
at the University of Alaska, has received a grant from the
National Science Foundation to conduct research on
recreational activities in the northern latitudes. The
research will focus on the effects of extreme weather on
recreational activities and the development of new
approaches to recreation in the Arctic region.

Student Senate

The Student Senate of the University of Alaska held its
first meeting of the academic year on September 1, 1955.
The meeting was attended by all members of the Senate,
and the agenda included discussions of the budget,
student life, and the upcoming academic year.

The Senate plans to meet the first Monday of each month,
beginning on September 15, and all students are invited
to attend.

Book Auction Meets Success

The annual book auction held by the University of Alaska
library was a great success this year. A total of 500
books were sold, raising over $1,000 for the library.

University Power Facilities Tied

In With GVEA

The University of Alaska has entered into a partnership
with GVEA (Gould-Vincent Electric Association) to
provide electricity to the campus.

Who's Who Lists Three

Students

The University of Alaska's Who's Who lists three
students for the 1955-56 academic year. The students
are Thomas Johnson, a senior in the College of Arts and
Sciences; Jane Smith, a junior in the College of Science;
and Emily Brown, a sophomore in the College of Education.

Bonnie Johnson

Gets Scholarship

Bonnie Johnson, a sophomore in the College of Education,
has been awarded a scholarship by the American
Association of University Women. The scholarship is
worth $500 and will be used to support her studies at the
University of Alaska.

Bookstore

The University of Alaska bookstore has recently
introduced a new line of travel books, including guides
to Alaska, the Arctic, and the Pacific Northwest.

Chem Club Hears

Drunkometer Talk

The Chem Club of the University of Alaska heard a talk on
the drunkometer, a device used to measure the alcohol
content of a person's breath. The talk was given by
Professor John B. Buckley, who explained the
operation of the drunkometer and its importance in
traffic safety.

Alcoholorner Bureau

The Alcoholorner Bureau of the University of Alaska has
recently been established to promote awareness of the
 dangers of alcohol consumption and to provide
education and support for students and faculty who may
be affected by alcohol.

Campus Visitor Emphasizes Need
For High Grades To Mining Students

The mining industry is placing a greater emphasis on
academic grades in order to attract students with high
moral character and strong academic performance.

Two Outstanding Scientists Visit
Associates Here

Two outstanding scientists visited the University of
Alaska, one from the Soviet Union and the other from
Canada. The scientists discussed their research and
shared their insights with students and faculty.

Library Services

The University of Alaska library has recently
introduced a new online catalog system, which
enables students and faculty to search for books and
other resources more easily.

Endowment Fund

The University of Alaska has received a significant
endowment gift from the Johnstone family, which will
be used to support scholarships and other academic
programs.

Campus Police

The University of Alaska campus police have
recently increased their presence on campus to
provide a safer environment for students and faculty.

Alumni Notes

"Fame" Raymond, M.D., has
recently relocated to
Chesapeake, Maryland. He
spent his childhood in
Bellingham, Washington, and
he is a graduate of the
University of Washington.

Diane Klein, M.D., M.P.H., has
recently been appointed as
the new director of the
University of Alaska's
department of public health.
She is a graduate of the
University of California and
is a member of the American
Public Health Association.

Clyde Little, M.D., M.P.H., has
been appointed as the new
dean of the College of Public
Health. He is a graduate of
the University of California
and is a member of the
American Public Health
Association.

Robert Chapman, M.D., M.P.H.,
has been appointed as the
new director of the College of
Public Health. He is a
graduate of the University of
California and is a member of
the American Public Health
Association.

Dr. Robert A. Bechtel, M.D., M.P.H.,
has been appointed as the
new director of the College of
Public Health. He is a
graduate of the University of
California and is a member of
the American Public Health
Association.
Extension Service Plans Annual 4-H Round-Up At University Of Alaska

Four-H boys and girls from all over the territory attended the University of Alaska campus at Fairbanks during the 2nd quarter for the annual 4-H Round-Up. The tentative program included events such as projects, contests, demonstrations, etc., which are part of the recreation of the university. Mrs. Voelke-Nason, Extension Service worker, and Mr. H. B. Rankin, Eliason, Extension Service supervisor, announced that 4-H Clubs from all over the state will be represented at the Round-Up. The facility will be open to the public and will feature various activities and exhibits.

Development of the North American Arctic and Subarctic stands in gain broad financial support from industry if the Arctic Institute of North America obtains its objective. These aims are accomplished in a large booklet the Institute recently published, which contains a foreword by Dr. Otto W. G. Maclean, research associate in the University of Alaska, and which was quoted by Dr. J. S. Barber from the University of Washington and Dr. S. H. Palmer from the University of California.

The booklet points out that the economic future of the entire Arctic region, particularly its mineral wealth, is dependent upon the support of the entire continent. In addition to the United States and Canada and 50 or more independent countries within the last few decades it has become accessible by sea and air, and navigation of the region is a few years.

There is a certain situation a challenge and a problem, but is it a real problem or is it one of the Arctic Ocean.

The Arctic Institute in its great desire to help develop this area. It has already made a movement in whole or in part, 100 separate projects toward this end.

It is to be hoped that this great desire in part, 100 separate projects toward this end.

It is to be hoped that this great desire will be dominated by the need to provide great opportunities to nations of the future.

In the booklet, President of the ASCE recently published, "The American Society of Civil Engineers," a comprehensive volume, contains information on the shortage of engineering and science students and the difficulties that face the profession.

The ASCE views with alarm the shortage of engineering and science students and the difficulties that face the profession.

The ASCE views with alarm the shortage of engineering and science students and the difficulties that face the profession.

The American Society of Civil Engineers is a removal of the shortage of engineering students. It is stated that the American Society of Civil Engineers was formed in 1878, and that industry will provide a great number of opportunities for students in this field.

When one is talking about the college, our joys and sorrows are the same, and we in the Department of English are the same. We are all part of one big family, and we all share in the same experiences and successes. The College is not just a place for students, but also for faculty, staff, and administrators who work together to create a positive and engaging environment for everyone. It is a place where we can learn and grow together, both personally and professionally. I am proud to be a part of this community and look forward to many more years of success and achievement.
