WRONG-WAY PARKING

Gary Harding, Campus Security Officer, asks us to forward the following message to our readers:

"We are presently having problems with vehicles parking on the wrong side of the street, i.e., facing the wrong way. Since we plan to start ticketing vehicles for this offense, I feel that it would be in the best interest of the people to advertise the problem and our intentions.

Those who have permitted themselves the luxury of this bad habit should keep in mind that it is necessary to drive on the wrong side of the road, both when parking and leaving their parking places.

We have on file, a note from a young lady whose vehicle was almost struck when one such parked vehicle pulled out in her lane of traffic on an icy road."
