INTRODUCTION

OVERVIEW

The "Conversion Tables" were produced for use with the Alaska OBTS database and the *Alaska Criminal Statute Cross-Reference Guide* created by the Alaska Justice Statistical Analysis Unit (SAU). The *Guide* was created to be a computerized reference for Alaska's criminal statutes although hard copies are available through the SAU for manual use. The *Guide* provides a cross-reference between Alaska Criminal Statutes and NCIC, UCR, AK-OBTS and BJS codes. Also included in the *Guide* are brief annotations of each statute. The SAU generated the cross-references with assistance from past editions of the Alaska Peace Officer's Association Field Manual, the Alaska Department of Public Safety's Conversion Guide, materials from the Bureau of Justice Statistics, and the current NCIC, UCR and OBTS manuals. All of these resources are available in the SAU for further analysis and assistance. Brief listings of the code definitions may also be found in the appendices.

The purpose of the "Conversion Tables" is to allow users of the *Guide* to quickly convert statutes to their corresponding codes manually. It is not necessary to use these tables when searching the computerized version of the *Guide*. The first editions of the "Conversion Tables" and *Guide* were published in May, 1990. Updates to these publications have been published on an annual basis to reflect changes by the legislature to the criminal statutes.

UNDERSTANDING THE TABLES

A basic description of each of the column headings is given below. Please see the references listed at the end of this introduction or contact the SAU for additional information.

1. Statute and Class

Alaska's Criminal Statutes can be broken down into the following categories which have implications for the type or length of sentence which can be imposed; many of which can be said to be "presumptive."

Level of Seriousness	Class	
Felony	U	-(unclassified) most serious felony
	A	
	B	
	C	-least serious felony
	blank	-class of felony is not specified in statute
Level of Seriousness	Class	
Misdemeanor	A	-most serious misdemeanor
	B	-least serious misdemeanor
	blank	-class of misdemeanor is not specified in statute
Violation	V	-not broken down into sub-classes
Infraction	I	-not broken down into sub-classes

Some statutes can have multiple classifications and also multiple levels of seriousness depending on the circumstances of the case. For some statutes the class of the offense is not specified, and therefore, the general seriousness level is the only indicator.

The statutes in the "Conversion Tables" and *Guide* have been further broken down into the relevant subsections of each

statute in order to assign the corresponding codes more specifically. The statute numbers ending in alphanumeric (i.e. A3, B1, etc.) are subsections, while the statute numbers ending in "NS" (non-specific) denote the entire statute to include each subsection. Statutes ending in "(OLD)" are statutes that have been repealed, but have been included for research purposes.

Some Alaska Administrative Codes (AAC) and titles have been included in order to correspond with the Department of Law's PROMIS translation and have been assigned appropriate codes. All AAC and general Alaska Statute Titles (ie. 3AAC or Title 14) are grouped at the end of the listing of statutes.

Violations and infractions are not normally included in the working definition of "crime" and are included here only in the interest of completeness.

2. NCIC

The four digit National Crime Information Center (NCIC) offense codes are often used in reporting crime at the national level. For example, federal standards for OBTS reporting require their use as they allow a degree of comparability between the states.

A common problem with attempting to convert state statutes to NCIC codes is that many of the states' statutes describe behavior which does not fit neatly into the established NCIC codes. As a result many states, Alaska included, are forced to use the "free text" category for many offenses, and thus lose the detail which distinguishes one type of offense from another. Roughly 50% of our statutes are given "XX99" (free text) codes.

The National Drug Consortium has created additional NCIC type codes for certain drug related offenses, and these non-standard codes are indicated by an asterisk (*) in the tables. Most of the Drug Consortium codes would have the official NCIC designation of "3599-Drug offense (free text)."

3. UCR

The codes in this column reflect the F.B.I.'s Uniform Crime Report code for use in completing the "Return A" form (offenses known to the police). This is the primary form used in the F.B.I. annual *Crime In The U.S.* report which also captures additional information from the entire UCR system.

4. ARB

These codes were created by Dr. Allan R. Barnes, Director of the SAU, for use with the Alaska Offender-Based Transaction Statistics (AK-OBTS) database. These codes turn Alaska criminal statutes into conventional offense categories, i.e. homicide, assault, rape, burglary, etc.

5. BJS

The Bureau of Justice Statistics (BJS) codes are created by collapsing all NCIC codes into four broad categories, i.e. violent, property, drug and other.

Approximately 95% of the cost of this edition of the *Conversion Tables* was funded by the Bureau of Justice Statistics, U.S. Department of Justice from a \$50,000 grant to the Alaska Justice Statistical Analysis Unit.

ACKNOWLEDGEMENTS

This has been a long and involved process for the SAU and its success is due to the dedicated individuals who have contributed their talents over the years. James Messick was the first to begin the process of translating state statutes to NCIC codes. Lydia Heyward, Marcia Reed, Serena Partch, Christine Kendrick, Darren McShea, Richard Curtis, Amy Dellinger and Rhonda Horn have all contributed. Teresa Sexton, however, was largely responsible for creating the Guide in its present form. Hers was a truly herculean accomplishment. The current SAU research technician is Julie Watson who has pushed the quality of our efforts even higher. As always, I accept full responsibility for any errors or omissions. Please give me a personal call at (907) 786-1819 if you feel that I have made an error, no matter how slight.

Drug Offense Code List

APPENDIX D

The following drug codes represent a revision of NCIC offense codes to accommodate the drug categories defined by the Bureau of Justice Assistance (BJA) data collection form found in the Drug Control and System Improvement Formula Grant Program.

The revisions allow for several levels of detail in coding offenses. Generic drug codes are available (3500, 3599). General activity (Sale, Sale Schedule I/II, Manufacture Schedule I/II) codes are available if drug type is not known but activity type is. General drug type is not known, but activity type is. General drug type codes are available (Heroin free text, Marijuana free text, etc.). Finally, specific drug offense codes are available for instances in which drug type and activity are known (Cocaine-sell, Hallucinogen-manufacture, etc.). These revisions should reduce the necessity to rely on the generic drug offense codes.
