Concert To Be At Theatre on March 23

Will Be Sponsored By Fairbanks

Dr. Bastress Speaks To Rotarians

Stress Work Of Organisms In Chemists In War

Professor Bantress spoke to the faculty in Fairbanks at the University of Alaska for a series of talks on March 23 at 1:30 p.m. A very interesting program was presented, including work done by Mrs. Chester Mayne, professor of education, and work done by Mrs. Clark. Both women were at the fairbanks academy in Fairbanks.

Business addressed the war effort in Britain in which the vapors are now being used. Artwork was presented in order to get the talk in the February issue of the Collegian. The assembly provided an interesting talk about the many uses of the sun from College. A special exhibit of the work of Dr. Bantress was also available at the college.

In addition to the talk, the assembly also presented a talk on "The Effect of Nuclear Energy". The talk was presented by Dr. Bantress and was also available at the college.

Dr. Bramhall Lectures On Solar Eclipse

Tells Assembly Of Forthcoming 97th Eclipse

An instructive and interesting lecture was held Thursday, Thursday, at the University of Alaska. Dr. Bantress spoke on the forthcoming solar eclipse. The assembly provided a presentation on the many uses of the sun from College. Artwork was also presented at the college, and a special exhibit of the work of Dr. Bantress was also available.

Key反思s “Doing Something”

Kittie’s Note: Mr. and Mrs. George Keys are so well known to former residents that no introduction is necessary. Mr. Keys is a professor who has written an article about his work in the Collegian.

History of Fairbanks

The first post office in Fairbanks was established in 1898. It was located in a tent on the bank of the Chena River. The postmaster was Charles F. Rice. The first post office building was built in 1902 and was located on the corner of 2nd Avenue and White Street. The building was burned in 1911 and a new building was constructed on the same site.

Heat Is Now At Premium

It is now a very cold time of the year and the demand for coal is very great. The price of coal has increased greatly in recent months. It is now selling for $2.50 per ton, up from $1.50 per ton just a few months ago. The price of coal is expected to remain high for the remainder of the winter.

Business in Barrow and Northeast Alaska

Business in Barrow and Northeast Alaska is quite busy at present. Many of the fishermen are now returning to their homes after a successful season. The prices of fish and other seafood are expected to remain high in the near future.

The weather in Barrow and Northeast Alaska is quite cold at present. The temperature is currently below zero degrees Fahrenheit. The forecast indicates that the cold weather will continue for several more days.

He gave more than 10% — what about YOU?

...and you're not even being asked to give, but to invest in your own future and make a handsome profit besides!

**THE STORY OF SCARSDALE JACK, SQUADRON LEADER JOHN V. BOWDELL of the Flying Tigers**

He had a lot to live for:

He loved his country — his countrymen at Rensselaer Polytechnic.

Ask his widow.

Scarsdale Jack, Squadron Leader John V. Bowdell of the Flying Tigers' roster, believed in duty out of the sky before he got him.

He gave all he had to give of courage, guts, gallantry, the will to fight and keep on fighting: and lose.

Not 10% but everything! His life.

You're being asked only to pledge 10% of your income: a dime of each dollar for War Bonds to give all the Scarsdale Jacks in Navy blue and Army O.D. and Marine forest green the planes, machine guns, bombs, bullets, torpedoes, tanks, and ships and every other weapon they need to give the Herrenvolk, the "sons of heaven," and the road-company Romans the bellyful of steel they asked for.

These men who are fighting for your homes, your children, your nation, your freedom aren't stopping at 10%.

That's all you're asked for — but why stop at 10% if you can do better?

**BUY WAR BONDS—everybody at least 10% every pay day**

**This space is a contribution to America's all-out war effort by Pacific American Fisheries, Inc. Bellingham, Washington**

Now look at the selfish reasons for buying your share of WAR BONDS

- War Bonds, first of all, are for winning the war. Without that, what future will any of us have?
- Beyond that, there are many advantages that make a 9 1/2% pledge add up to solid business sense.
- You get back in ten years $10.50 for every $10 you put in.
- They are a direct obligation of the United States Government.
- You get back every cent you put in after ten days if you decide you don't need money.
- You put a handsome interest.
- 3.5% compounded — 5% more money back at maturity than you put in.
- Inflation is the dreaded threat of every American. Economic warfare in War Bonds by each and every American is our major protection against inflation.
- This sheet in that day your bonds mature. It will be wonderful to have that money then, instead of inflation it away now.
- When you think of what you have as odds, 9 1/2% sounds like nothing to lose. So make it more — if you can.

**STUDENT SECTION...**

**A Look Back**

These are important days to the Territory of Alaska. These events and accomplishments are considered milestones in the history of the University of Alaska. These are' hard days for all of us, students and faculty alike, as we face the challenges of our work.

It might be well for us now to take stock of our past, look over the rough path over which the founders and today's students have traveled, reflect on the achievements of our predecessors and the founders and today's heads of the University of Alaska.

From February 15, 1916, when a bill was introduced into the third Congress of the United States granting to the Territory of Alaska an annual appropriation for the support of public education, the University has been the focus of American interest and concern.

The University of Alaska has grown from a small institution of a few buildings and a student body of a few dozen students to a major university with a statewide system of campuses and a faculty of several hundred.

In 1947, the University was granted the authority to grant degrees in all fields of education. This was a significant step forward for the University, and it set the stage for its continued growth and development.

The University of Alaska is an important part of the American educational system, and it continues to play a vital role in the development of the state of Alaska.

The University of Alaska is a public university, and it is committed to providing educational opportunities to all qualified students. It is dedicated to the principles of excellence, accessibility, and diversity.

I. George Polk Undoes The Japs

Capt. William L. Connelley, who took part in the attack on the Japanese, is shown in this picture of the action. His story was written by Capt. John W. Durno, who was with him on the deck of the cruiser, and is published here for the first time.

**Mourning over a Body**

Dr. and Mrs. John L. Young, of New York, are shown here mourning over a body that was found in a lagoon in Mariana. The body was that of a Japanese pilot, who was killed in an air battle in the Pacific.

**Skull Club Has Outing**

The Skull Club held an informal meet on the Rock Island last week. About 50 members attended, and the meeting was well attended.

**Air Corps Meet V-Men 32 To 26**

An informal meet between the infantrymen and the V-Men was held last week. The V-Men won by a score of 32 to 26.

**Informal Ski Meet At Birch Hill**

An informal meet between the infantrymen and the V-Men was held last week. The V-Men won by a score of 32 to 26.
