Sexual Assault Study: Differences by Victim’s Race
Kamaree Altaffer and André Rosay

DATA:
This analysis is based on 541 sexual assaults reported to the Anchorage Police Department in 2000 and 2001. More specifically, this analysis compares the 257 Caucasian victims to the 243 Native victims. White and Native victims represented 90% of all victims.

1.5% of victims were Hispanic, 4.7% were Black, 1.5% were Asian, and 0.7% were of two or more races.

This research was supported by Grant No. 2000-RH-CX-K039 awarded by the Bureau of Justice Statistics and by a UAA Faculty Development Grant to the second author. © 2004 Justice Center, University of Alaska Anchorage
